In terms of claims 24, the prior art of record does not teach alone or in combination a method of producing a semiconductor device including the step of contacting a plurality of contact terminals formed within a first area surrounded a first metal film, wherein the first metal film has a linear expansion coefficient substantially the same as a linear expansion coefficient of the wafer and is formed by 42 alloy or invar, in combination with all other elements in claim 24.

As to claims 18 and 19, the claims are allowed as they further limit allowed claim 24.

In terms of claims 27, the prior art of record does not teach alone or in combination a method of producing a semiconductor device including the step of contacting a plurality of contact terminals formed within a first area surrounded a first metal film, wherein the first metal film has a linear expansion coefficient substantially the same as a linear expansion coefficient of the wafer and is formed by 42 alloy or invar, in combination with all other elements in claim 27.

As to claims 21-23, the claims are allowed as they further limit allowed claim 27.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
